IS THIS INVESTMENT RIGHT FOR ME?

This investment may be right for you if you:

- seek capital protection;
- wish to diversify your portfolio;
- have an investment horizon of 3.5 years, 5 years, 6 years or longer;
- don't plan to withdraw your investment prior to maturity;
- agree to forgo part of the guaranteed return provided by traditional term savings to benefit from a higher potential return.

HOW DOES THIS SOLUTION DIFFER FROM TRADITIONAL TERM SAVINGS?

With the exception of the guaranteed return, this guaranteed investment differs from traditional term savings in that it does not provide a pre-determined return.

The guaranteed investment's return is determined only at maturity and is dependent on the performance of the reference portfolio.

HOW ARE RETURNS CALCULATED?

Between your investment's purchase date and issue date, your capital will yield a 1.00% interest rate per year.

Between the issue date and the maturity date, the return is based on the variation in the price of 8 equal-weighted equity securities, as previously listed, up to a maximum of 10.00% (3.5 years), 20.00% (5 years) or 27.00% (6 years).

In order to mitigate the effects of potential security downturns at maturity, we take into account the average monthly prices for each security during the term's final 3-month period.

This investment does not entitle the holder to dividends and distributions paid by the companies in the portfolio. Investment returns are not affected by exchange rate fluctuations, even if security prices are published in foreign currencies.

Interest payment	3.5-year term	5-year term	6-year term
If the cumulative return at maturity is less than or equal to: Interest paid will be:	2.00% 2.00%	5.00% 5.00%	7.00% 7.00%
If the cumulative return at maturity varies between: Interest paid will be:	2.00% and 10.00% the actual cumulative return	5.00% and 20.00% the actual cumulative return	7.00% and 27.00% the actual cumulative return
If the cumulative return at maturity is over: Interest paid will be:	10.00% 10.00%	20.00% 20.00%	27.00% 27.00%

Returns based on equity price performance could be nil at maturity. However, your capital and the minimum annual rate of return are guaranteed at maturity.

HOW CAN I KEEP TRACK OF MY INVESTMENT'S PERFORMANCE?

The investment's performance is updated regularly at www.desjardins.com, but is provided for informational purposes only. The investment's return is only determined at maturity.

WHAT HAPPENS WHEN MY INVESTMENT MATURES?

At maturity, barring any specific requests on your part, your investment (capital and interest, if any) is automatically reinvested in a similar product.

CAN I REDEEM MY INVESTMENT BEFORE THE MATURITY DATE?

You may redeem or convert your investment on an annual basis starting on its third anniversary date for investments with a 5- or 6-year term. Approximate redemption or conversion value will be provided to you upon request. Please refer to the Investment Agreement for more information regarding terms and conditions.

Redemption or conversion value could be less than the amount of invested capital when the redemption transaction is done on the investment's third or fourth anniversary.

WHAT HAPPENS DURING MARKET UPHEAVALS?

The caisse reserves the exclusive right to determine the appropriate measures to be taken in such circumstances. For example, if trades are suspended as a result of a significant stock market downturn, the caisse could choose to postpone the date at which the investment's starting level is taken into account.

WHAT IF I CHANGE MY MIND?

You have up to five business days after receiving your Investment Agreement to cancel your investment and retrieve your deposit by contacting your caisse advisor.
