

Promoting ecocitizenship in our partnerships through education, engagement, entrepreneurship and more

Empowering, motivating and engaging families

By developing an **environmental and ecocitizenship** program for young people ages 9 to 12 with **Carbone Scol'ERE**.

Helping students find solutions for schools

By providing a place where young people ages 12 to 17 can **talk, work together** and **get motivated** about what high schools can do for **people** and the **environment**.

Encouraging young people to raise awareness among their peers

By helping **Gen Z** produce **educational content** to get more people **involved** in climate action.

Combating ecoanxiety through engagement

By helping young people with **climate** and waste management initiatives through the **Sors de ta bulle** campaign.
