FCDQ Legislative Covered Bond Programme Monthly Investor Report

Calculation Date : 2026/05/31

This report contains information regarding loans or other assets, as the case may be, (the Cover Pool) securing the obligations under the covered bonds issued by La Fédération des caisses Desjardins du Québec (FCDQ) under the Fédération des caisses Desjardins du Québec Legislative Covered Bond Programme (the Programme) as of the indicated calculation Date. The composition of the Cover Pool will change as Loans are added and removed from the Cover Pool from time to time and, accordingly, the characteristics and performance of the Loans will vary over time.

THE COVERED BONDS HAVE NOT BEEN APPROVED OR DISAPPROVED BY CANADA MORTGAGE AND HOUSING CORPORATION (CMHC) NOR HAS CMHC PASSED UPON THE ACCURACY OR ADEQUACY OF THIS REPORT. THE COVERED BONDS ARE NOT INSURED OR GUARANTEED BY CMHC OR THE GOVERNMENT OF CANADA OR ANY OTHER AGENCY THEREOF.

The Cover Pool is owned by CCDQ Covered Bond (Legislative) Guarantor Limited Partnership (Guarantor LP), which has no liabilities or claims outstanding against it other than those relating to the Programme. For further information, please refer to Desjardins' website maintained in respect of the Programme at :

AMF Covered Bond Ratio : [1]	3.7%
AMF Covered Bond Ratio Limit :	5.5%
Weighted Average Maturity of Outstanding Covered Bonds (months)	29.45
Weighted Average Remaining Term of Loans in Cover Pool (months)	25.07

(1) Per AMF's Decision dated September 9, 2019, the AMF Covered Bond Ratio refers to assets pledged for covered bonds relative to total balance sheet assets within the scope of regulatory consolidation. Total balance sheet assets within the scope of regulatory consolidation as of March 31, 2026. As of September 30, 2023, the AMF Cover Bond Ratio will be calculated on the basis of the total balance sheet assets of the Desjardins Group pursuant to AMF's Decision No. 2023-SIF-0005.

Supplementary Information (continued)

Description of Ratings Triggers *

For any trigger where both a short-term and a long-term ratings level are specified for a particular rating agency separated by (i) "or", the consequences are triggered when either such level is breached, and (ii) "and", the consequences are triggered when both such levels are breached.

A. Party Replacement

If the rating(s) of the Party falls below the level stipulated below, such party is required to be replaced or in the case of the Swap Providers transfer credit support and replace itself or obtain a guarantee for its obligations.

Role (Current Party)	Moody's	Fitch
Account Bank & GIC Provider (FCDQ)	P-1	F1 or A
Standby Account Bank & GIC Provider (RBC)	P-1	F1 or A
Cash Manager (FCDQ)	P-2 (cr)	F2
Servicer (FCDQ)	Baa2	F2
Interest Rate Swap Providers (FCDQ)	P-2 and A3	F3 and BBB-
Covered Bond Swap Providers (FCDQ) [1]	P-2 and A3	F3 and BBB-
Title Holder on Hypothecs (Mortgages) (FCDQ)	Baa1	BBB+

[1] In the case of CBL7 only, the Covered Bond Swap Provider is required to be replaced if the Moody's longterm ratings fall below A3(cr) or if the Fitch short-term and longterm ratings fall below F2 and BBB+.

B.Specified Rating Related Action

i. The following actions are required if the rating of the Cash Manager (FCDQ) falls below the stipulated rating

	Moody's	Fitch
(a) Amounts held by the Cash Manager belonging to the Guarantor are required to be deposited directly into the Transaction Account or the GIC *Account as applicable within 5 business days*	P-1	F1 or A
(b) Amounts received by the Servicer are to be deposited directly to the GIC Account and not provided to the Cash Manager	P-1	F1 or A

ii. The following actions are required if the rating of the Servicer (FCDQ) falls below the stipulated rating

	Moody's	Fitch
a) Servicer is required to transfer amounts to belonging to the Guarantor, the Cash Manager or GIC Account, as applicable, within 2 business days	P-1 (cr)	F1 or A

iii. The following actions are required if the rating of the Issuer (FCDQ) falls below the stipulated rating

	Moody's	Fitch
(a) Repayment of the Demand Loan	N/A	F2 or BBB+
(b) Establishment of the Reserve Fund	P-1 (cr)	F1 or A
(c) Fund Pre-Maturity Liquidity Required Amount on Hard Bullet Covered Bonds	P-1	F1+

iv. The following actions are required if the rating of the Issuer (FCDQ) falls below the stipulated rating

	Moody's	Fitch
(a) Cashflows will be exchanged under the Covered Bond Swap Agreement (to the extent not already occurring) except as otherwise provided in the Covered Bond Swap Agreement	Baa1	BBB+

v. Each Swap Provider is required to transfer credit support or obtain a guarantee of its obligations and may replace itself if the rating of such Swap Provider falls below the specified rating

	Moody's	Fitch
(a) Interest Rate Swap Provider	P-1 and A2 [1]	F1 and A-
(b) Covered Bond Swap Provider	P-1 and A2[1,2]	F1 and A-

[1] If no short-term rating, long-term trigger is A1

[2] in the case of CBL7 only, the Covered Bond Swap Provider is required to transfer credit support or obtain a guarantee if the Moody's long-term ratings fall below A2(cr) or if the Fitch short-term and long-term ratings fall below F1 and A."

Events of Default & Test Compliance

Issuer Event of Default	No
Guarantor Event of Default	No

* Moody's ratings are in respect of unsecured, unguaranteed and unsubordinated debt obligations, unless "(cr)" is indicated, in which case, ratings are in respect of counterparty risk assessment. Fitch ratings are in respect of issuer default ratings.

C = Cash Capital Contributions	$0	ACT_C	Asset Percentage :	95.00%
D = Substitute Assets	$0	ACT_D	Minimum Asset Percentage :	80.00%
E = Reserve Fund	$0	ACT_E	Maximum Asset Percentage :	95.00%
Y = Contingent Collateral Amount	$0	ACT_Y		
Z = Negative Carry Factor Calculation	$238 169 355	ACT_Z	Regulatory OC Minimum :	105.00%
Total: A + B + C + D + E - Y - Z	**$20 414 895 356**	Montant_ACT	Level of Overcollateralization[1] :	105.34%

Asset Coverage Test **Pass**

(1) Per Section 4.3.8 of the CMHC Guide, (A) the lesser of (i) the total amount of cover pool collateral and (ii) the amount of cover pool collateral required to collateralize the covered bonds outstanding and ensure the Asset Coverage Test is met, divided by (B) the Canadian dollar equivalent of the principal amount of covered bonds outstanding under the registered covered bond program.

Valuation Calculation Test (C$)

Trading Value of Covered Bonds	**$18 555 935 890**
A = LTV Adjusted Loan Present Value [1]	$21 334 828 918
B = Principal Receipts	$0
C = Cash Capital Contributions	$0
D = Trading Value of any Substitute Assets	$0
E = Reserve Fund	$0
F = Trading Value of Swap Collateral	$0
Total: A + B + C + D + E + F	**$21 334 828 918**

The actual weighted average rate used for discounting is 6.259%

(1) Present value of expected future cash flows of Loans using current market interest rates offered to Desjardins clients.

Intercompany Loan Balance

Guarantee Loan	$19 752 627 102
Demand Loan	$1 992 427 704
Total	**$21 745 054 806**

Cover Pool Summary Statistics

Previous Month Ending Balance ($)	22 383 952 421		
Current Month Ending Balance ($)	21 745 054 806		
Number of Mortgage Loans	99 084		
Average Loan Balance ($)	219 461		
Number of Properties	99 082		
Number of Borrowers	95 401		
	Original		**Indexed**
Weighted Average Current LTV (1)	58.87%		47.25%
Weighted Average Original LTV (1)	67.23%		
Weighted Average Authorized LTV (2)	70.57%		
Weighted Average Rate	4.14%		
Weighted Average Original Term	50.97	(months)	
Weighted Average Remaining Term	25.07	(months)	
Weighted Average Seasoning	25.90	(months)	
Weighted Average Maturity of Outstanding Covered Bonds	29.45	(months)	

(1) For Versatile Loans, current LTV and original LTV is calculated based on all loans secured by the same property within the Cover Pool.
(2) For Versatile Loans, the authorized LTV is calculated based on loans which are drawn or available to be drawn secured by the same property including those loans held outside the Cover Pool.

Provincial Distribution

Cover Pool Substitute Assets

Type	Canadian Government Bonds
CMHC Guide Limit [1]	2 174 505 481.00 $

[1] The CMHC Guide limit Substitute Assets to 10% of the total Cover Pool Collateral.

Indexation Methodology

As of the date of this Investor Report, the Guarantor uses the methodology described below (which methodology is, as of the date hereof, the "Indexation Methodology"), to establish the current market loan to value ratios ("LTV ratio") of residential properties securing loans included in the Covered Bond Portfolio on a quarterly basis for purposes of the Asset Coverage Test, the Amortization Test, the Valuation Calculation and for other purposes as may be required by the CMHC Guide from time to time. Changes to the Indexation Methodology may only be made

(i) upon notice to CMHC and satisfaction of any other conditions specified by CMHC in relation thereto,
(ii) if such change constitutes a material change, subject to Rating Agency Confirmation, and
(iii) if such change is materially prejudicial to the Covered Bondholders, subject to the consent of the Bond Trustee.

The Indexation Methodology must at all times comply with the requirements of the CMHC Guide. The index used by the Guarantor to determine the updated market value of a Property is the Teranet-National Bank Regional and Property Type Sub-IndicesTM ("TNB RPTSIs"). The TNB RPTSIs product is available by subscription at www.housepriceindex.ca. This website and its contents do not form part of this Investor Report.
The TNB RPTSIs product is an independent representation of the rate of change of Canadian single-family home prices. The measurements are based on the property records of public land registries, grouped into individual Forward Sortation Areas (or clusters of FSAs). At this time all Properties in the Covered Bond Portfolio are located in FSAs covered by the TNB RPTSIs. Sub-indices are further segmented by property type (all types vs. single-detached homes vs. condominiums) in areas where this data is available. For areas where the TNB RPTSIs are not subdivided by property type, the Guarantor will use the all types sub-index. All properties that have been sold at least twice are considered in the calculation of the TNB RPTSIs; this is known as the repeat sales methodology. Properties that are affected by endogenous factors are not considered in the estimation. These factors may include:

a) nonarms-length sale,
b) change of type of property, for example after renovations,
c) data error, and
d) high turnover frequency (biannual or higher).

In the repeat sales methodology, the averaging of price appreciation from different pairs of sales is done using an estimation process in which each pair is a separate observation. For purposes of the Covered Bond Portfolio, each Property is assigned an original index value based on its appraisal date or re-evaluation date, if more recent information is available. On at least a quarterly basis, the latest index value for a Property is compared to the original index value. The relative change is used to calculate an updated market value. This market value is used as the denominator in the current market LTV ratio.

Material risks associated with using the Indexation Methodology include, but are not limited to, the following: the accuracy, adequacy and timeliness of the TNB RPTSIs being relied upon; the consistency in underlying methodology of such TNB RPTSIs; the continued availability of the home sale price data provided to Teranet; and in the case of Properties located within the areas where the TNB RPTSIs are not subdivided by property type, the risk that the all-types sub-index may not account for differences in property value changes based on property type.Teranet Inc. ("Teranet") has, jointly with National Bank of Canada ("NBC", and collectively with Teranet and their third party licensors, the "Licensors"), developed a methodology and algorithm to create a residential house price index. The Fédération des caisses Desjardins du Québec Legislative Covered Bond Programme (the "Programme") is not endorsed, sold or promoted by the Licensors. None of the Licensors make any representation or warranty, express or implied, to the parties to the Programme or any member of the public regarding the advisability or recommendation of investing in the Programme particularly or concerning the results to be obtained from the TNB RPTSIs and the ability of such product to track the performance of the residential real estate and housing markets or concerning the extent to which the capital value or income return of the Programme matches or will match the performance of the TNB RPTSIs or the levels at which the TNB RPTSIs may stand at a particular date. The Licensors' only relationship to Fédération des caisses Desjardins du Québec ("FCDQ") is the licensing of certain trademarks and trade names of the Licensors without regard to the FCDQ or the Programme. The Licensors have no obligation to take the needs of the FCDQ or the parties to the Programme into consideration in determining, composing or calculating the TNB RPTSIs. None of the Licensors is responsible for and none has participated in determining the pricing, quantities or timing of the execution of the Programme by the parties thereto or the assessment or method of settlement calculation therefor. The Licensors have no obligation or liability in connection with the administration, marketing or trading of the Programme.

Property valuation policies and methods.
For property valuation policies and method(s) used in respect of Eligible Loans, please refer to the section entitled Loan Origination and Lending Criteria – Valuation and Appraisals, in the Base Prospectus https://www.desjardins.com/ca/about-us/investor-relations/fixed-income-investors/legislative-covered-bond-program/index.jsp#documentsOffre

Risk Factor
Please refer to the following sections in the Base Prospectus https://www.desjardins.com/ca/about-us/investor-relations/fixed-income-investors/ccd-covered-bonds-terms-access/index.jsp

Market Risk
1. Factors Which Are Material for the Purposes of Assessing the Market Risks Involved in an Investment in the Covered Bonds
Summary of the Principal Documents – Interest Rate Swap Agreement / Summary of the Principal Documents – Covered Bond Swap Agreement

The Issuer, in its capacity as Interest Rate Swap Provider, and the Guarantor have entered into an Interest Rate Swap Agreement that provides the Guarantor with a hedge against possible variances in the rates of interest payable to the Guarantor on the Portfolio Assets (which may, for instance, include variable rates of interest or fixed rates of interest) following the Interest Rate Swap Effective Date, and the amount (if any) payable in respect of its obligations under the Intercompany Loan and, following the Covered Bond Swap Effective Date, the Covered Bond Swap Agreement. The interest rate swap confirmation is not yet effective and cashflows are not being exchanged pursuant thereto. The obligations under the interest rate swap confirmation are contingent and will only become effective on the Interest Rate Swap Effective Date. Further details can be found in the interest rate swap confirmation. The Issuer may be required to post collateral to secure its obligations under the Interest Rate Swap Agreement upon the activation of rating triggers. These rating triggers have not been activated and no collateral has been posted yet. Further details can be found in the Base Prospectus in the section entitled "Summary of the Principal Documents – Interest Rate Swap Agreement" with the downgrade rating triggers described within that section under "Interest Rate Swap Early Termination Event".

The Issuer, in its capacity as Covered Bond Swap Provider, and the Guarantor have entered into Covered Bond Swap Agreements that provide the Guarantor with a hedge against currency and/or other risks arising, following the occurrence of the Covered Bond Swap Effective Date, in respect of amounts received by the Guarantor under the Interest Rate Swap Agreement and amounts payable in respect of its obligations under the Covered Bond Guarantee. The parties have entered into a separate swap confirmation for each outstanding Series of Covered Bonds. The obligations under the covered bond swap confirmations are contingent and will only become effective on the Covered Bond Swap Effective Date. Further details can be found in the covered bond swap confirmation in respect of a trade, which will be available once posted on the Issuer's covered bond website following completion of the trade https://www.desjardins.com/ca/about-us/investor-relations/fixed-income-investors/ccd-covered-bonds-terms-access/index.jsp None of these confirmations is effective and cashflows are not being exchanged pursuant thereto. The issuer may be required to post collateral to secure its obligations under the Covered Bond Swap Agreements upon activation of rating triggers. These ratings triggers have not been activated and no collateral has been posted yet. Further details can be found in the Base Prospectus in the section entitled "Summary of the Principal Documents - Covered Bond Swap Agreement" with the downgrade rating triggers described within that section under "Covered Bond Swap Early Termination Events".

Interest Rate Risk
1.Risks related to variance between market value of the Covered Bond Portfolio and market value of the obligations guaranteed under the Covered Bond Guarantee
2.Risks related to the Structure of a Particular Issue of Covered Bonds – Fixed/Floating Rate Covered Bonds
3.Financial Regulatory Reforms in the U.S. and Canada Could Have a Significant Impact on the Issuer or the Guarantor
Summary of the Principal Documents – Interest Rate Swap Agreement / Summary of the Principal Documents – Covered Bond Swap Agreement

Currency Risk
1.Risks Resulting from the Guarantor's Reliance on Swap Providers
2.Risks related to variance between market value of the Covered Bond Portfolio and market value of the obligations guaranteed under the Covered Bond Guarantee
3.Financial Regulatory Reforms in the U.S. and Canada Could have a Significant Impact on the Issuer or the Guarantor
4.Exchange rate risks and exchange controls
Summary of the Principal Documents – Interest Rate Swap Agreement / Summary of the Principal Documents – Covered Bond Swap Agreement

Credit Risk
1.Risks related to Resolution of EU Firm Counterparties to the Issuer and UK Banking Act
2.Risks resulting from the Guarantor's Reliance on Swap Providers
3.Risks resulting from the Guarantor's Reliance on Third Parties
4.Risks resulting from default by Borrowers in paying amounts due on their Loans
5.Risks resulting from changes to the Lending Criteria which may result in increased Borrower Defaults
6.Issuer is the Sole Obligor of the Covered Bonds
7.Guarantor Only Obliged to Pay Guaranteed Amounts When the Same are Due for Payment
8.Bankruptcy or Insolvency risk
Summary of the Principal Documents – Hypothecary Loan Sale Agreement / Summary of the Principal Documents – Limited Partnership Agreement
Summary of the Principal Documents – Covered Bond Swap Agreement / Summary of the Principal Documents – Interest Rate Swap Agreement

Liquidity Risk
1.The Guarantor has finite resources available to meet its obligations under the Covered Bond Guarantee
2.Risks resulting from the differences in timings of obligations of the Guarantor and the Covered Bond Swap Provider under the Covered Bond Swap Agreement
3.Withholding on payments under the Covered Bond Guarantee
4.Risks related to the maintenance of the Covered Bond Portfolio
5.Risks related to the realizable value of the Covered Bond Portfolio
6.Risks Resulting from a Lack of Notice and Registration of the Sale, Transfer and Assignment of the Loans and Their Related Security in the Covered Bond Portfolio on the Relevant Transfer Dates
7.Extendable obligations under the Covered Bond Guarantee
Terms and Conditions of the Covered Bonds – Condition 6. – Redemption and Purchase
Credit Structure – Reserve Fund

Maturity Structure
Covered bonds can be issued on any term with soft bullet maturities (extendable for an additional year from contractual maturity date). Issuers must prescribe ratings triggers for (a) establishment of a cash reserve fund sufficient to satisfy interest and Guarantor's senior payment obligations for a period prescribed by the issuer and (b) pre-maturity tests designed to ensure covered bond collateral includes cash to satisfy all principal payments under hard bullet bonds maturing during a prescribed period and all senior payment obligations during that prescribed period. Following an issuer event of default, the Guarantor will be required to perform a monthly amortization test to confirm that value of covered bond collateral is at least equal to the outstanding principal amount of covered bonds.
Terms and Conditions of the Covered Bonds – Condition 6. – Redemption and Purchase Redemption at Maturity

Extension Triggers and Extended Due Dates
All outstanding Series are soft bullets. An Extended Due for Payment Date twelve months after the Final Maturity Date has been specified in the Final Terms of each such Series. The Interest Rate specified in this report in respect of each Series applies until the Final Maturity Date of that Series following which the floating rate of interest specified in the Final Terms of each Series is payable monthly in arrears for the interest period from and including the Final Maturity Date to but excluding the Extended Due for Payment Date. This means that, if the Issuer fails to pay the Final Redemption Amount of a series of Covered Bonds on the Final Maturity Date (subject to applicable grace periods) and the Guarantor has insufficient moneys available in accordance with the Priorities of Payments to pay in full the Guaranteed Amounts corresponding to the Final Redemption Amount, then payment of the unpaid amount pursuant to the Covered Bond Guarantee will be automatically deferred and will be due and payable on the Extended Due for Payment Date specified in the applicable Final Terms. To the extent it has available funds, the Guarantor will be required to make partial payments of amounts remaining unpaid on each Interest Payment Date up to and including the Extended Due for Payment Date.
