

Important information about your caisse's merger

New transit and folio numbers

On January 1, 2025, Caisse Desjardins du Secteur public de l'Estrie merged with Caisse Desjardins des Deux-Rivières de Sherbrooke. As a result, your transit number will change to 50124 on January 18, 2025. You'll also have a new folio number as of that date. *

General information – Personal and business members

- You don't need to open a new account at the newly created Caisse Desjardins des Deux-Rivières de Sherbrooke.
- **Your Desjardins debit and credit cards will stay the same.**
- If you have cheques, you can keep using them until they run out. They're still valid even though your caisse has changed.
- Paper and electronic **account statements** will be automatically updated. You should receive 2 statements: one before the IT system merger on January 18, 2025, and one after the merger.
- All **pre-authorized transactions** (bill payments, transfers between accounts, money transfers and Interac e-Transfer® transactions) will automatically carry over. Similarly, any direct deposits and **direct withdrawals that you already have set up won't be affected.**
- You'll be able to see transactions completed before the IT system merger in the **Statements and documents** section of **AccèsD** starting on January 19, 2025.
- Your **statements for Desjardins Funds or other registered products**, such as securities, Capital régional et coopératif Desjardins shares or other investments may not be available on AccèsD from January 18 to 23, 2025.

Specific information – Business members

- If you need **new cheques** and deal with a private printing company, don't use the sample cheque available on AccèsD Affaires between now and January 19, 2025. Contact us to get the new transit number, folio number and check digit.
- If you're signed up to receive **printed cheque images by mail**, you'll get a special statement with the images of all cheques processed between January 1 and 18, 2025. Regular cheque imaging service will resume after that. If you're signed up to view **digital cheque images** on AccèsD and AccèsD Affaires, your cheque images will remain available as PDFs for 124 days.
- If you typically download spreadsheets (.CSV) for **bank reconciliation** purposes, you should retrieve your files the day before the IT system merger and then again at the end of the month. After the IT system merger, the files you download will only show financial data from January 18, 2025, onward.
- We won't send replacements for your **personalized deposit slips**. However, we recommend that you manually update your account information to prevent errors.

* Your new folio number will appear on AccèsD starting on January 19, 2025. Information on how to determine your new folio number is also provided on page 2 of this document. Your Membership Application will be updated with the new folio number but all of its clauses will continue to apply.

New folio number: Detailed examples

- If your current folio number is between **7 and 94 862**, add **205 000** to determine your new folio number. **Example: 7 becomes 205 007.**
