## IS THIS INVESTMENT RIGHT FOR ME?

This investment may be right for you if you:

- want to protect your capital;
- wish to diversify your portfolio;
- have an investment horizon of 3 years or more;
- don't plan to withdraw your investment prior to maturity;
- agree to forgo a guaranteed return to benefit from a higher potential return than that offered by term savings.

## HOW DOES THIS SOLUTION DIFFER FROM CONVENTIONAL TERM SAVINGS?

This guaranteed investment differs from conventional term savings in that it does not provide a pre-determined return.

**Return on the investment is based on the appreciation of the benchmark securities and can only be known at maturity. Return could be nil at maturity.**

## HOW ARE RETURNS CALCULATED?

Between the purchase date and the issue date, your investment generates interest at 0.55% per year.

Between the issue date and the maturity date, the return is determined as follow:

1. The average fluctuation of the 20 securities that make up the basket.
2. This fluctuation is multiplied by the participation rate and grows to a maximum of 15.00% for investments less than \$25,000, or 16.50% for investments of \$25,000 and more.

To reduce the effect of a potential market pullback, we factor in the average of the monthly price readings during the last three months of the term.

Here is an example return for an investment of less than \$25,000 based on four scenarios of the basket's performance.

Basket fluctuations	Multiplied by the participation rate	Cumulative return rate
-2.00%	200%	0.00%
4.00%	200%	8.00%
5.00%	200%	10.00%
20.00%	200%	15.00%

This investment does not entitle the holder to dividend paid by the companies in the portfolio.

Investment returns are not affected by exchange rate fluctuations, even if the prices are denominated in foreign currencies.

For full details on how the return is calculated, please read the Investment Agreement.

**Variable returns are based on the performance of the reference security basket. Your capital is always guaranteed at maturity.**
