

MARKET-LINKED GUARANTEED INVESTMENT (MLGI)

Responsible Aggressive Guaranteed Portfolio

Term: 3 years

OVERVIEW

The Responsible Aggressive Guaranteed Portfolio includes companies carefully selected for their growth prospects and strong environmental, social and governance (ESG) practices. It allows you to take advantage of the return potential of 50 companies from around the world in a range of sectors, all while protecting your capital.

We've selected companies for each ESG factor, based on the following criteria:

- The company has attractive growth potential.
- The issues related to the factor (E,S or G) are decisive for the company.
- The company has been assessed positively for its overall ESG practices, and especially for its practices related to the specific factor it was selected for.

- Capital 100% guaranteed at maturity
- Covered by deposit insurance¹
- Interest paid at maturity
- Eligible for registered plans
- Income taxed at maturity if investment is non-registered²
- No management fees
- Hedged against foreign currency fluctuations
- Eligible for member dividend calculation

Performance indicators	\$500 to \$24,999	\$25,000 and more
Maximum annual compound rate of return	5.67%	5.94%
Maximum cumulative return	18.00%	18.90%
Participation rate	100%	105%

Key dates	
Sale period	May 19 to July 20, 2026
Investment issuance	August 17, 2026
Investment maturity	August 17, 2029

Additional information: The participation rate represents the percentage of the benchmark portfolio's return paid to the product holder at maturity. The returns shown include the participation rate.

The caisse is the issuer of the investment.

¹For more information on deposit insurance, please visit lautorite.qc.ca.

²Except for interest paid before the issue date.

The companies making up the baskets were selected on the basis of the Desjardins Structured Products Responsible Investment Policy (available at <https://www.desjardins.com/ca/personal/savings-investment/market-linked-guaranteed-investments>). It is subject to change without notice. Please refer to the Investment Agreement for more details on the baskets.

IS THIS INVESTMENT RIGHT FOR ME?

This investment may be right for you if you:

- want to protect your capital;
- want a comprehensive, diversified investment;
- have an investment horizon of 3 years or more;
- don't plan to withdraw your investment prior to maturity;
- look for an investment with a responsible approach to investing;
- agree to forgo a portion of the guaranteed return provided by conventional term savings to enjoy a higher potential return.

HOW DOES THIS SOLUTION DIFFER FROM CONVENTIONAL TERM SAVINGS?

This guaranteed investment differs from conventional term savings in that it does not provide a pre-determined return.

The return on the investment is based on the appreciation of the benchmark portfolio and can only be known at maturity. Return could be nil at maturity.

HOW ARE RETURNS CALCULATED?

Up to the issue date, your investment generates interest at 0.55% per year. Between the issue date and the maturity date, the return depends on the performance of the portfolio's components. The maximum cumulative return is indicated in the Overview section.

Calculation of variable return

The annual compound return on variable-yield components is linked to the securities composing the portfolio. The calculation also takes into account the weighting of each one as illustrated in section Investment composition.

To reduce the effect of a potential market pullback, we factor in the average monthly price reading the last three months of the term. Return on each of the variable-yield component is capped.

This investment is not eligible for dividends paid on the benchmark securities.

Return on the investment is not affected by changes in exchange rates even if prices are published in foreign currencies.

For full details on how return is calculated, please see the Investment Agreement.

The variable return is based on fluctuations in the prices of the securities composing the reference portfolio, Therefore, it could be nil at maturity. However, the capital is guaranteed at maturity.

HOW CAN I KEEP TRACK OF MY INVESTMENT'S PERFORMANCE?

Log in to AccèsD and go to the **Savings and investments** section to access the Dynamic Market-Linked Guaranteed Investment Return Tracker, or visit desjardins.com/returntracker. Return details are provided for information purposes only. Your investment return is also indicated on your Desjardins monthly account statement, for information purposes. Return on the investment can only be known at maturity.

WHAT HAPPENS WHEN MY INVESTMENT MATURES?

Shortly before maturity, you will receive a reminder by mail or via AccèsD. At maturity, unless you give other instructions to your advisor or in AccèsD (if your investment is eligible for online renewal), your investment will be automatically reinvested in a similar product with comparable terms and conditions.

CAN I REDEEM OR CONVERT MY INVESTMENT BEFORE THE MATURITY DATE?

The Investment Agreement does not provide the option of converting or redeeming this investment before maturity.

Some exceptions may apply - please refer to the Investment Agreement for more information.

WHAT HAPPENS DURING MARKET UPHEAVALS?

The caisse reserves the exclusive right to determine the appropriate measures to be taken in such circumstances. For example, if trading is suspended, the caisse could choose to postpone the date at which the starting index value of the investment is taken into account.

WHAT IF I CHANGE MY MIND?

You have up to five business days after receiving your Investment Agreement, by mail or via AccèsD, to ask your advisor to cancel your investment.
