## PROJECT DESCRIPTION

---

Project name:

**Yoga Classes**

Project description (objectives, brief description of tasks to be carried out, etc.):

**I want to organize a yoga class so my students can learn breathing and relaxation techniques. I've already got a space picked out and I would have the kids set it up the way they like. At the end of the year, I'd also like to have a little party so the kids could celebrate their yoga experience.**

How the project helps young people persevere/stay in school:

**By asking the kids to organize the activity and take part all year long, I think I'll be boosting their sense of belonging to the school, and it will help them to build friendships. Plus, physical activity is part of a healthy lifestyle, which is one of the keys to keeping kids in school.**

How many young people you expect to reach with the project:

**30**

Image that represents the project (photo, logo or any other type of image):

## PROJECT FINANCING

---

Total cost of the project:

**\$1,000**

Financing obtained from other sources:

**Yes \$200**

How much financial assistance you would like to receive:

**\$800**

## #DesjardinsFoundation Prizes

How the amount will be used:

**The \$200 already raised will go towards renovating the room.  
\$600 is needed to buy the yoga equipment (blocks and mats).  
\$200 will be put towards the wrap-up party (decorations and healthy food).**
