

# MONEY COUNTING SHEET

In the chart below, write the quantity of coins and bills of each type that are in your piggybank. Use the “Quantity” column.

Then, with a parent’s help, add up the dollar (\$) value for each type of coin and bill. Write it in the “Value” column. When you’ve counted all the coins and bills, add up the total value of the money in your piggybank and write it in the appropriate box at the bottom.

		DATE:		DATE:		DATE:		DATE:	
		Quantity	Value (\$)	Quantity	Value (\$)	Quantity	Value (\$)	Quantity	Value (\$)
COINS	1¢								
	5¢								
	10¢								
	25¢								
	\$1								
	\$2								
BILLS	\$5								
	\$10								
	\$20								
	\$50								
	\$100								
TOTAL (\$)		→		→		→		→
