

**August 22, 2019 Montreal**

The CTS is proud to announce its new partnership with the Caisse Desjardins du Réseau de la santé.

This partnership will provide strategic expertise to startups. The Caisse Desjardins du Réseau de la santé is specialized in the health sector and will provide specific and adapted services to startups in health technologies accompanied by the CTS.

*"We are proud of this partnership with the CTS that will benefit health technology companies. By leveraging our expertise, our Health Team can provide growth and expansion capital and offer strategic advices to meet their needs at every stage of their life cycle. We are pleased to put our expertise at the service of entrepreneurs and thus contribute to the achievement of their financial and strategic objectives." Says Mr. Levac, Director, Caisse Desjardins du Réseau de la santé.*

The CTS will provide to Caisse Desjardins du Réseau de la santé access to startups in the medical technology sector as well as a platform to increase their visibility and promote their services. At an early stage of development, startups have special financial needs and require personalized support in their funding process.

*« This partnership with the Caisse Desjardins du Réseau de la santé marks another important milestone for CTS and its startups. We are grateful for this partnership that complements our offering by adding an important new source of capital and giving our startups access to a team of professionals specializing in medical technologies. », added Mr. Hervé, Chairman of the Board of CTS.*

### **About the Caisse Desjardins du Réseau de la santé**

The Caisse Desjardins du Réseau de la santé with its Health Team is the specialized group in the health and life sciences sector for Desjardins. Serving exclusively professionals and companies in the field, its team is composed of advisers and partners who know the reality of the environment, its constraints and opportunities, giving the expertise to offer a personalized service, efficient and suitable for businesses and entrepreneurs in the health sector.

### **About the CTS**

The CTS is a business accelerator in the field of medical technologies that provides startups with coaching as well as marketing and financing support, enabling them to grow faster and substantially increase their chances of success. For more information, visit [ctssante.com](http://ctssante.com)
