IS THIS INVESTMENT RIGHT FOR ME?

This investment may be right for you if you:

- seek capital protection;
- wish to diversify your portfolio;
- Wish to reap the rewards of potential interest rate increases on 1-year caisse term savings and an attractive bonus;
- have an investment horizon of 5 years or longer;
- don't plan to withdraw your investment prior to maturity.

HOW DOES THIS SOLUTION DIFFER FROM CONVENTIONAL TERM SAVINGS?

This guaranteed investment differs from conventional term savings in that it does not provide a pre-determined return. **A yearly return is guaranteed. Return may vary from year to year because the 1-year term savings rate may change. Return on the investment can only be known at maturity and the interest will be paid at maturity.**

HOW ARE RETURNS CALCULATED?

Up to the issue date, your investment generates interest at 0.85% per year. Between the issue date and the maturity date, the return is based on an index reflecting changes in the caisse interest rate on 1-year term savings, as shown below:

Return	corresponds to:
at issuance of the investment	the highest of the two following rates: <ul style="list-style-type: none">• the prevailing caisse interest rate on July 30, 2018 for conventional 1-year term savings,• the prevailing caisse interest rate on October 5, 2018 for conventional 1-year term savings, with an interest rate bonus as shown on the right.
on the first, second, third and fourth investment anniversary dates and at maturity	the prevailing caisse interest rate on that date for conventional 1-year term savings, with an interest rate bonus as shown on the right. The interest is compounded and paid at maturity.

Fixed-yield component bonus	
\$1,000 to \$24,999	0.30%
\$25,000 to \$249,999	0.55%
\$250,000 and more	0.75%
