IS THIS INVESTMENT RIGHT FOR ME?

This investment may be right for you if you:

- seek capital protection;
- wish to diversify your portfolio;
- have an investment horizon of 5 years or longer;
- don't plan to withdraw your investment prior to maturity;
- agree to forgo a guaranteed return to benefit from a higher potential return than that offered by term savings.

HOW DOES THIS SOLUTION DIFFER FROM CONVENTIONAL TERM SAVINGS?

This guaranteed investment differs from conventional term savings in that it does not provide a pre-determined return.

Return on the investment is based on the appreciation of the benchmark securities and can only be known at maturity. Return could be nil at maturity.

HOW ARE RETURNS CALCULATED?

Between the purchase date and the issue date, your investment generates interest at 0.55% per year.

Between the issue date and the maturity date, the return is determined as follow:

1. The average fluctuation of the 20 securities that make up the basket.
2. This fluctuation is multiplied by the participation rate and grows to a maximum of 16.50% for investments less than \$25,000, or 19.25% for investments between \$25,000 and \$249,999, or 22.00% for investments of \$250,000 and more.

To reduce the effect of a potential market pullback, we factor in the average of the monthly price readings during the last three months of the term.

Here is an example return for an investment of less than \$25,000 based on four scenarios of the basket's performance.

Basket fluctuations	Multiplied by the participation rate	Cumulative return rate
-2.00%	300%	0.00%
5.00%	300%	15.00%
8.00%	300%	16.50%
20.00%	300%	16.50%

This investment does not entitle the holder to dividend paid by the companies in the portfolio.

Investment returns are not affected by exchange rate fluctuations, even if the prices are denominated in foreign currencies.

For full details on how the return is calculated, please read the Investment Agreement.

Variable returns are based on the performance of the reference security basket. Your capital is always guaranteed at maturity.

HOW CAN I KEEP TRACK OF MY INVESTMENT'S PERFORMANCE?

You can access the Dynamic Market-Linked Guaranteed Investment Return Tracker by logging on to AccèsD and clicking on the Savings/Investments section, or by visiting desjardins.com/returntracker. Information on returns is provided for information purposes only. The return on your investment is also shown on your Desjardins monthly account statement, for information purposes. Return on the investment can only be known at maturity.

WHAT HAPPENS WHEN MY INVESTMENT MATURES?

Shortly before maturity, you will receive a reminder by mail or via AccèsD. At maturity, unless you give other instructions to your advisor or in AccèsD (if your investment is eligible for online renewal), your investment will be automatically reinvested in a similar product with comparable terms and conditions.

CAN I REDEEM MY INVESTMENT BEFORE THE MATURITY DATE?

Once a year, after the third anniversary, you may convert your investment into another Market-Linked Guaranteed Investment. You may also redeem it. At your request, you will be notified of its approximate conversion or redemption value. Please refer to the Investment Agreement for details.

Conversion/redemption value may be less than the invested capital and will not amount to the potential maximum at maturity.

WHAT HAPPENS DURING MARKET UPHEAVALS?

The caisse reserves the exclusive right to determine the appropriate measures to be taken in such circumstances. For example, if trading is suspended, the caisse could choose to postpone the date at which the starting index value of the investment is taken into account.

WHAT IF I CHANGE MY MIND?

You have up to five business days after receiving your Investment Agreement, by mail or via AccèsD, to ask your advisor to cancel your investment.
