#### STEP 4:

##### **Complete a skills profile and a psychological profile**

These tests will enable you to better understand your strengths, weaknesses, management skills, communication and decision-making style. They will provide an accurate and compelling portrait of the type of entrepreneur you are and what training you need to succeed.

## STEP 7:

### **Consider various acquisition scenarios with the transferor**

While acquiring a business can be done in one step or gradually, the latter approach is often necessary. It provides the successor with an opportunity to become familiar with the business and to gradually assume responsibilities. It is also preferable for the seller to ensure business continuity after his departure and to ease him through the process if he is not quite ready to retire immediately.

Both the transferor and the successor need to be open about their needs and plans. In this business partnership, communication and detailed planning of each step are essential.

## STEP 8:

### **Negotiate with the transferor**

The conditions for buying the business must be negotiated in order to reach an agreement. After agreeing on the terms and price of the sale with the seller, you must write a letter of offer; this will demonstrate your commitment as a serious buyer, subject to certain conditions. A specialized attorney can guide you here. Our advisors will ensure you have access to the right specialists.

## STEP 9:

### **Transfer project financing scenarios**

The financing set-up for a transfer differs from one business to another. Contrary to popular belief, there is no universal financial product for business transfers.

You must carefully and thoroughly assess your financial needs and those of the business. In addition, you must ensure that your scenario is both flexible and able to drive business growth.

## STEP 10:

### **Due diligence, price adjustments and other conditions**

At this stage of the negotiations, you will need the support of your advisors (lawyer, accountant, tax specialist) to implement the conditions for a successful transfer.

## STEP 11:

### **The legal transaction**

This step includes the drafting by legal advisors of all legal documents and contracts. You must ensure you understand the legal aspects of all deeds, documents and contracts involved in the transaction. Your legal advisor will clearly explain them to you.

## STEP 12:

### **Entrance and integration strategy**

A well-planned entrance strategy is very important; careful planning will help ensure a smooth transition. The transferor's participation, particularly when meeting with employees, is essential. From the beginning, employees need to be reassured about any future decisions and projects. Take the time to listen to and ease their concerns.
